Workshop Sessions

All sessions relate to elements of the Level 1 Health and Safety in Construction Environment training. The practical sessions enable participants to put the training into perspective in a 'work based' environment at the Dusty Forge.

Day 1 -

- Construction site visit (if available)
- Level 1 taster session
- Marking out timber and cutting
- Using tools such as: pin hammers, hand saw, impact driver/drill etc
- CITB CSCS test revision session

Day 2 -

- Level 1 taster session
- Using glue to fix bird box together
- Sanding and painting bird box
- CITB CSCS test revision session
